Qunnderrie Snelling

Full Stack Engineer | JavaScript | React | Tailwind CSS

qunnderrie@gmail.com | 470-775-7160 | [Portfolio](#) | [LinkedIn](#) | [Github](#)

SUMMARY

Software Engineer with experience in both frontend and backend technologies, including React, Node.js, Express.js, MySQL, and MongoDB. Graduated from a coding bootcamp, where I developed full-stack web and mobile applications using React and React Native. Skilled in building responsive UIs, developing APIs, and managing databases to create efficient, user-friendly applications. Eager to bring my problem-solving abilities and technical skills to a dynamic team, delivering impactful solutions in a fast-paced environment.

SKILLS

Web Technologies: JavaScript, TypeScript, React, React Native, Redux, HTML5, CSS, Express.js, Node.js,Python, Tailwind CSS

Cloud Technologies: Google Firebase

Programming: Debugging, troubleshooting, object-oriented programming, data structures and algorithms, databases

Operating systems: Windows, Apple

Tools: Visual Studio, Git, Github

Soft skills: Results driven, multi-tasking, strong communication skills, teamwork, attention to detail, Time management, problem solving, critical thinking, Adaptability, Collaboration, Creativity

PROJECTS

Front-End Software Engineer | [Mortgage Calculator](#)
- Developed a mortgage payment calculator using React for dynamic user interactions and Bootstrap for responsive design.
- Ensured a user-friendly interface with mobile responsiveness and clean UI design using Bootstrap components

Full Stack Software Engineer | [ToDo List](#)

- Built a full-stack to-do list app with React for the frontend and Node.js/Express.js for the backend, ensuring smooth interaction between client and server.
- Implemented JWT authentication for secure user login and data management, allowing users to add, update, and delete tasks.
- Utilized MongoDB to store and manage user data and tasks, ensuring efficient data retrieval and persistence.

Full-Stack Software Engineer | [Portfolio](#)
- Designed and developed a personal portfolio website to showcase full-stack development skills and projects.
- Built the frontend with React for dynamic content and a responsive, mobile-friendly design using Bootstrap.
- Created a Node.js backend with Express.js to handle server-side logic and API integration

Full Stack Software Engineer | Mobile Chat App (In Development)
- Developing a cross-platform mobile chat app using React Native with real-time messaging and push notifications.
- Implemented user authentication using JWT for secure login and registration via Node.js and Express.js.
- Styling the app with Bootstrap and Tailwind CSS for a responsive and modern user interface.

EDUCATION & CERTIFICATIONS

Associates of Computer Science, Information Technology | Strayer University, Columbus, GA | February 2019
- Earned an Associate's Degree in Computer Science, focusing on IT fundamentals, programming languages, networking, and database management, providing a strong foundation in software development and IT support.

Full Stack Web Development | True Coders Coding Bootcamp, Remote | June 2023
- Completed a full-stack development program, gaining hands-on experience with React, HTML5, CSS, Git, Github,

Node.js, Express.js, MongoDB, and MySQL.
- Built and deployed multiple web applications, including a mortgage calculator and a task management app.

PROFESSIONAL EXPERIENCE

Truck Driver 05/2022 - Current
Shepherd Transportation | Lagrange, GA

- Demonstrated strong problem-solving skills by navigating challenging routes, ensuring timely deliveries, and addressing unexpected issues efficiently—skills that translate into debugging and troubleshooting software.
- Managed time and resources effectively, ensuring that deadlines were met, similar to managing project timelines and prioritizing tasks in software development.
- Worked closely with clients and team members, developing clear communication skills that are essential for collaboration and code reviews in a software engineering environment.

IT Desktop Support | 03/2020 - 03/2022
First Credit Services | Columbus, GA

- Supported internal staff by diagnosing and resolving hardware, software, and network issues for over [X] employees.
- Ensured company systems were up-to-date by installing and configuring software updates, patches, and antivirus solutions.
- Provided on-site and remote troubleshooting support for network issues, operating system problems, and application bugs.
- Managed user account setups and assisted with password management, improving system security and employee access.
